Team Apache did a GREAT job working around the very wet weather early in the day. The rain subsided just before the start for the racers. Wagner, Zellmann and Kalstrup found the windless dry areas to record some very fast times. Tara continues to record the fastest women time. Christine was surprised to beat Diane. Unfortunately, Doug flew by a busy corner guard directing traffic and rode some extra miles before returning to finish the course. Team Miwa registered all the racers, raced and handed out the awards.
